The following information from Weyerhaeuser is approved for external distribution to all Lumber Yard Supply employees and customers:

Message: Weyerhaeuser is partnering with Lumber Yard Supply of Montana to distribute Weyerhaeuser products and will close the Weyerhaeuser distribution yard in Butte, MT.

Lumber Yard Supply has the distribution reach and service posture that makes it easier for customers to get the Weyerhaeuser branded products they want like Trus Joist TJI Joists, Parallam PSL, TimberStrand LSL, Microllam LVL and Structurwood panel products.

Weyerhaeuser representatives Mark Havens and Dave Stavnitski are in their same roles going forward - consulting with builders, specifiers and lumber dealers to provide product information and technical support for Weyerhaeuser products.

Weyerhaeuser remains committed to the Montana and North Wyoming markets - we partnered with Lumber Yard Supply to leverage their strengths with ours to service these markets better. Pro-dealer and other Weyerhaeuser programs remain unchanged since Weyerhaeuser will continue actively marketing and promoting our products in these markets.
